FOREWORD

District Industrial Potential Report of Jhalawar-Rajasthan is prepared by this institute under its action plan target for the year 2020-21. The information on material resources, Administrative set up, details about PSUs, Clusters situated in the district, potential for new MSMEs are embedded in this document. The Objective of this report is to expose the resource base, studying industrial scenario of the district, for the benefits of all budding/existing entrepreneurs.

I commend the efforts of Sh. Ajay Sharma AD(Met) in preparing this District Profile. The District profile has been prepared on the information gathered from various Govt. departments and secondary data supplied by them. I extend my thanks to all those departments for their useful contribution in bringing out this document.

Brief Industrial Profile of Jhalawar District

1. General Characteristics of the District

The city of Jhalawar was founded by Jhala Zalim Singh (First), who was the then Dewan of Kota state (1791 A.D.). He established this township, then known as Chaoni Umedpura, as a cantonment. The township was surrounded with dense green forests and wild animals.

Jhala Zalim Singh often came here for hunting and he liked the place so much that he wanted to develop it as a township. The objective to develop this place as a military cantonment was due to the fact that Maratha invaders passed through this central place from Malwa towards Kota to capture Hadoti states.

Legendary Jhala Zalim Singh recognized the importance of this place and started to develop it as a military cantonment and township, so that he could use this place to attack and stop Maratha invaders before they can reach to Kota state.

Chaoni Umedpura got developed as a cantonment and township around 1803-04 A.D. Colonel Todd, who visited the region in December, 1821 described this area as the cantonment established by Jhala Zalim Singh plus a well-established township with large houses, havelis, and surrounding walls.

In 1838 A.D., English rulers separated Jhalawar state from Kota state and gave it to Jhala Madan Singh, the grandson of Jhala Zalim Singh. He developed his administration services to develop the state of Jhalawar. He resided in Jhalara Patan for a long time and started to build The Garh Palace (1840 - 1845 A.D.). He was the first ruler of Jhalawar state and made his great contribution in the history of Jhalawar.

Jhala Madan Singh ruled Jhalawar from 1838 to 1845. After his death, Jhala Prithvi Singh became the ruler of Jhalawar, and ruled for around 30 years.

Rana Bhawani Singh Ji, who ruled Jhalawar state from 1899 to 1929 A.D., did remarkable work in the development of Jhalawar state. His active involvement was in the fields of social activities, public works (construction), education, administration, etc. During his time, a number of genius personalities of Jhalawar gave their active hand in these activities.

1.1 Location & Geographical Area.

At the border of Rajasthan and Madhya Pradesh, nudging its fat belly into neighboring MP is this fascinating place - Jhalawar. A mystery waiting to be unraveled. Questions waiting to be asked, answers waiting to be found. It was the capital of a small princely state created in 1838.

It is a rock-strewn, scrub-covered terrain, occasionally bright with fields of poppies and citrus-green groves of oranges. Lying in the south-eastern region of Rajasthan at the edge of the Malwa plateau, Jhalawar has rocky but water-laden verdant landscape, unlike much of Rajasthan.

1.2 Topography

Jhalawar district is an expanse of fertile plain having rich black-cotton soil. It is watered by several rivers, giving it a verdant look. The largset river flowing through the area is **Kali Sindh** which flows through the territory to join the Chambal, Rajasthan's largest river. Other rivers include **Ujaad, Ahu, Parvan, Chavli**, etc.

The Aravali hills, which are the most ancient folded mountain range in India, crosses the region, roughly dividing the plains of hadoti from the Malwa plateau. These hills and the surrounding areas were once thickly forested and teemed with wildlife.

1.5 Administrative set up.

Jhalawar district is identified as the 17th district of Rajasthan. **District Collector** is the head of District administration. Various district level departments and offices are located at the district headquarter. District-level officials work while sitting in Jhalawar. Time-to-time administrative tours are organized to bring up and solve the problems of rural areas.

Eight Sub Divisional Officers (SDOs) work at the division level to distribute the power at local level. Jhalawar district has eight sub-divisions

Jhalawar district is divided into 8 blocks (Panchayat Samitis). Each block has a BDO (Block Development Officer) to serve as the representative of the district administration in the rural areas.

Various development works and projects at the rural level (Gram Panchayat Level) are run through Block offices. One Gram Sevak is appointed at each Gram Panchayat to keep record of the development works and to project required development works. "Gram Sabha" (Village Meetings) are organized on fixed intervals to discuss about development of villages

There are eight tehsil headquarters in Jhalawar district. Each one has a **Tehsildaar** as the administrative officer. Whole department of a Tehsildaar

work in accordance with the Land-record system to serve for the rural farmers and land-holders. The tehsils of district are:

A tehsil contains a number of "Patwar-Mandal", each of which has a Patwari to serve for the landholders and farmers.
